Ingredients manufacturer Jiaherb enlarges manufacturing facilities and launches new U.S. website

(PARSIPPANY, NJ) December 15, 2011 – JIAHERB, Inc., the Parsippany, N.J.-based ingredients company offering more than 200 ingredients to the nutraceutical, pharmaceutical, food and cosmetic industries, and the largest herbal extract manufacturer from China, has launched a new U.S. website and enlarged its overseas manufacturing facilities.

The new www.JiaherbInc.com website highlights the continuing standard of quality and excellence provided by JIAHERB and brings more focus to its proprietary herbal extracts and natural ingredients, as well as featuring the new manufacturing facilities and research and development center that cater to its target audiences.

JIAHERB, whose leading branded ingredients include HTPurity™ high-purity, peak X-free 5-HTP, ReserveNature™ emodin-free natural trans-resveratrol, Rhodiola5Plus™ value-added rhodiola rosea extract, InnoSeng™ pesticide-free innocent ginseng product line TTT-Bilberry™, HPLC-Gingerols™ and Schisandrins™ schisandra extract, plus purified herbal powders, pro-tribulus, quercetin, milk thistle and cranberry, has distinguished itself from other ingredient suppliers as a company with the distinctive ability to capacitate large projects involving high quality extracts. Since arriving in the U.S. in early 2008, the company has expanded its sales and

support staff to ensure unparalleled customer satisfaction and increased options for product development.

“In order to maintain our high quality standards and achieve higher rates of efficiency and energy conservation in our 250,000 sq. ft. in Xi’an, China, NSF-GMP-certified manufacturing facility, we are constantly updating both our equipment and production system,” said Chris Oesterheld, JIAHERB assistant vice president.

Manufacturing facilities housing over 400 employees and an extraction capacity of more than 500 botanicals per year, include 42,000 sq. ft. production area, 5,400 sq. ft. CNAS-certified in-house laboratory, 50,000 sq. ft. raw material warehouse, and 10,800 sq. ft. R & D center.

The company’s streamlined manufacturing process and vast inventory allow it to fulfill client orders worldwide in a timely manner. JIAHERB operates distribution facilities in New Jersey and California to ensure fast turnarounds for the North American market.

The state-of-the-art NSF-GMP certified, ISO9001, ISO14001 and HACCP/ISO22000 manufacturing facility plus in-house lab testing, and product extraction and purification processes in China, maintain the utmost in product quality. JIAHERB offers Star-K Kosher and AHF-Halal certifications and meets Good Manufacturing Practices (GMP).

“We maintain detailed, complete production records and closely monitor each step of the manufacturing process with our advanced information management system,” Oesterheld said.
